"The quake [March 11, 2011] caused a rift 15 miles below the sea floor that stretched 186 miles long and 93 miles wide, [according to the AP](#). The areas closest to the epicenter of the quake jumped a full 13 feet closer to the United States, geophysicist Ross Stein at the United States Geological Survey [told The New York Times](#). The 9.0 magnitude quake (the [fourth-largest recorded since 1900](#)) was caused when the Pacific tectonic plate dove under the North American plate, which shifted Eastern Japan towards North America by about 13 feet. The quake also shifted the earth's axis by 6.5 inches, [shortened the day by 1.6 microseconds](#), and sank Japan downward by about two feet. As Japan's eastern coastline sunk, the tsunami's waves rolled in."

Whassup on Planet Earth? Those with the ability to look at the stars can see the alignment of planets occurring in the sky above. What effect will the influences of the **Sun** (Soul), **Moon** (Heart), **Mercury** (Head), **Mars** (Body), **Jupiter** (Great Mind), **Uranus** (Consciousness), and **Lilith** (Conscience), all snuggling up in Aries as April arrives, have upon humanity and this beautiful

blue-green planet we call our home? How will our Earth Mother respond?

When **Mother Gaia** speaks we are called to listen! Yet, as the winds of change begin to blow more intently and with more frequency, as expanding labor pains assure our delivery into a new way of life on earth, what actions can we take to stay open and alert to Her call and to align ourselves with a new sense of center, a grounding synchronization with Her true presence as She transforms in this new millenium?

Gaea (from an Ancient Greek word for "land" or "earth;" also **Gæa**, **Gaia**, or **Gea**) was the name given the primal Greek goddess personifying the Earth, the Greek version of "Mother Nature," the Earth Mother. **Gaia** is a primordial deity in the Ancient Greek pantheon and considered a Mother Titan or *Great Titan*. Oaths sworn in the name of Gaia, in ancient Greece, were considered the most binding of all. And, Greek mythology tells that, although he was also her husband, she brought forth **Uranus** as her son.

There is no truer expression of the very essence of *Transformation* than **Mother Gaia**.

URANUS (planet of sudden, unexpected change, and order through chaos) moved into **ARIES** (new beginnings and energy in its rawest form) at the same time in March 2011 that the Earth's crust shifted and the tectonic plates moved Japan 13 feet closer to North America and displaced the Earth's axis another 6 1/2 inches. With **JUPITER** and **MERCURY** already in Aries, **URANUS** blasted through time and space, shaking and quaking everyone and everything within trembling proximity... and it caused and is still causing quite the stir!

Remember when the Sun, Mercury, and Mars aligned in Pisces in February at the same time the earthquake shook New Zealand? And the disasters in Japan the day that Uranus entered Aries? There is a bigger alignment in Aries on April 2nd! The Sun (3/20), followed by Mars (4/1), the Moon (4/2), and Lilith (and later Miss Venus) will all join Jupiter and Uranus, pouring their light into marvelous Aries, sign of new beginnings and fresh bursts of energy... what a powerful time *to get ourselves back to the garden!*

Because we've foreseen these events for many years, we're now receiving such an in-pouring of emails with so many shared questions, that we've created this IX month blog spot especially for this transformational happening. *Which came first - the **Uranus event** or the **Gaia event**? Were they related? What can we expect going forward into Spring and Summer of 2011? How long will this Uranus in Aries influence last, and what other interesting events may be on the horizon? Are the poles about to shift? Will Atlantis rise again? Is this the beginning of what the Mayan Calendar predicts as the end of this race and the start of a new race of humankind? Is this the end of the world or just the end of the world as we know it? Please join us on our 7Temples blog as we explore the answers to these questions and more ...*

While we can't tell you how the story ends, mainly because we aren't compelled to buy into the concept of endings \only transformations/ this "Earth Changes" blog will present a series of **Q&A** regarding present and upcoming planetary metamorphosis, and is to continue in IX parts for the IX months of gestation between April and December 2011. Please continue to submit your questions and we'll do our best to provide you with input from a variety of knowledgeable sources, including our own channels. And please add your comments, share links, etc. This is an opportunity for us to grow together in one of the most exciting evolutionary eras in the history of Earth and its inhabitants. **Join us on our 7Temples blog – we value your input!**

As the next two months unfold it's prudent to listen to your intuition, pay attention to those "gut feelings", try to steer clear of judging others unless you're willing to walk a mile in their shoes, and begin to recognize your true power in the Universe.
